

APPLICATIONS • Wash racks • Grooming areas • Cross-ties • Stalls • Scraper mats in front of doorways • Pathways • Grass retention

# WINNER'S CIRCLE RING MATS

## MANUFACTURING

Made from a blend of recycled and virgin rubber, Winner's Circle flooring is a premium quality product through-and-through. It is the most resilient item in Summit's line of rubber flooring materials, and as such, it has our highest rating for comfort. When spending long hours in a grooming area or wash stall this feature is as valuable for you as for the animal, perhaps more so.

## DESIGN

Winner's Circle flooring is built to permit fast drainage of surface liquids while maximizing safe footing, particularly in wash racks, grooming areas and cross-ties. To this end, Winner's Circle's bottom side is held off the subsurface by hundreds of small rubber pegs. Liquids drain quickly off the surface and then proceed to the drain in the subfloor. It is the natural flexibility of these rubber pegs which gives Winner's Circle its excellent resilience and comfort.

In an uncommon use of its design features, you may choose to use Winner's Circle as a pathway covering over dirt or grass. During rainy spells, Winner's Circle will keep you out of the mud, and it will protect the roots of grass so that bald spots will not develop in the path. The healthy root system of the grass will maintain soil integrity. In many instances, you will be able to mow over the grass that grows through the matting and scarcely be able to tell that Winner's Circle is present.

## DRAIN-THROUGH FLOORING

For those interested in drain-through stall flooring, the Winner's Circle Heavy Duty Ring Mat is ideal. Resilient and comfortable, this flooring option runs circles around its hard-plastic competitors. Why would anyone stable a horse on a hard, slippery, and potentially abrasive plastic floor? Use our Winner's Circle Heavy Duty Ring Mat wall-to-wall with a layer of limestone screenings covering the surface to the point that all the holes are filled. You'll be glad you did.

## DRAIN THROUGH FLOORING OPTION

## PRODUCT SPECIFICATIONS

Size:	39.4" x 59" (1m x 1.5m)
Weight:	38 lbs. (17 kg)
Color:	Black
Surface Pattern:	Octagonal holes with carved ridge top and nubs on bottom
